SPC Grade 2 Intrusion System

IP Based Intrusion system with embedded web server

Vanderbilt's SPC5320.320 control panel combines in an optimal way intrusion and access functionality in one system and can be expanded according to specific customers and project needs with up to 128 zones (8 on-board), 128 outputs (6 on-board), 16 system keypads, 16 doors, 8 verification zones. The controller provides 2 X-BUS ports (2 stubs or 1 loop), 16 areas, 500 users with different access levels, memory for 10'000 intrusion and 10'000 access events, integrated Web Server, 2 terminals for the pluggable PSTN and GSM/GPRS communication options, on-board Ethernet interface.

The system is expandable with wireless receivers and supports up to 120 wireless detectors (mixed with wired zones).

The panel comes in a tamper protected metal housing with space for an optional 17 Ah battery..

Key Features include:

- On board Ethernet
- Multi Lingual support
- EN50131 compliant
- 50136 communications
- Long Battery capacity
- Front and back tamper
- Definable Schedules
- Cause and effect engine
- Access control functions
- Audio and Video Verification

Key Numbers:

- 500 Users
- 128 Zones
- 128 Outputs
- 16 Keypads
- 16 Doors16 Areas

Applications:

- Domestic
- Super markets
- Commercial

Languages:

- English
- German
- French
- Spanish
- Portuguese
- Swedish
- Norwegian
- Czech
- Danish
- Finnish
- Italian

Grade 2 Intrusion System

Features & Benefits

Communications

The SPC system provides a powerful portfolio of communication options. The system is capable of offering IP based, 50136 compatible communications. Along with traditional analogue communications.

Configuration

The SPC family provides a common interface for configuration across the range. Each system can be configured locally from a keypad or the connecting directly to the on board web server. Remotely the web server provides the ability to support customers and alter functionality.

Commercial

The integrated commercial capability enables you to easily configure and operate commonly used procedures for commercial applications such as intelligent handling of common areas, and additional functions for system monitoring.

Cause and Effects

The functionality of the SPC system can be extended to fit specific customer or market requirements. Various triggers from the system (e.g. zones, areas, user identifications, schedules) can be logically combined in order to activate specific processes.

International approvals

Compliance with international standards - such as

- EN, SES
- NF
- **INCERT**
- **IMQ**

It is crucial to ensure that security systems are installed professionally and remain reliable.

User management

The system provides you with the ability to control user's intrusion and access rights. SPC offers support for a range of access readers. User's rights can be restricted by time, day or area.

Advanced Features

User definable functions

The functionality of the SPC system can be extended to fit specific customer or market requirements. Various triggers from the system can be logically combined in order to activate specific processes

■ Remote Access anywhere

Using SPC Connect any IP enabled SPC panel can be remotely accessed. Providing remote access to customers to the web interface and mobile app access.

SPC5320

Grade 2 Intrusion System

Technical Data

Intrusion	
Max. number of hardwired zones	128
Hardwired zones On board	16
Max. number of outputs	128
Programmable areas	16
Max. number of users	500
EOL resistor	4K7/4K7 (default), 25 other resistor combinations selectable, Anti-mask support
Interfaces	2 X-BUS (2 spurs or 1 loop) 2 RS232 1 USB 1 Fast Programmer 1 Ethernet (RJ45)

ACCESS							
Event memory	10,000 access events						
Max. number of doors (entry/entry-exit)	16/8						
Max. number of door groups	16						
Supported card technologies	 Mifare Classic 1K Cotag DESfire EM4102 Ocorporate 1000 HID Corporate 1000 						
Special functions	Pass-back prevention (soft / hard),Custodian, Escort System arming functions						

Grade 2 Intrusion System

Wireless	
Max wireless zones	120
Max Wireless Fob	50
Max. number of wireless detectors received by any wireless access point (recommended)	20
Compatible wireless module	SPCW110

CONNECTIVITY	
Web Server	HTTPS (embedded) TLS encrypted
IP	Native integrated
Pluggable Communication Interfaces	PSTN or GSM/GPRS modem (max. 2 optional modems)
Standard Communication Protocol	SIA, Contact ID, SMS messaging
Fast Programmer Support	Yes
Firmware Upgrade	Local/Remote upgrade for Controller, Expanders, Com-Modules
Alarm transmission paths	IP over Ethernet, IP over GPRS, PSTN GSM
Alarm transmission protocols IP	FlexC – Multipath communication EDP
Alarm transmission protocols analogue based	SIA, SIA Extended 1, SIA extended 2, Fast format, Contact ID, SMS messaging

Power and Mechanica	
Mains Voltage	230 V AC, +10 to -15 %, 50 Hz
Operating Current	Max. 160 mA at 12 V DC
Quiescent current	Max. 140 mA at 12 V DC
Output voltage	13-14 VDC in normal conditions (mains powered and fully charged battery),
Auxiliary power (nominal)	Max. 750 mA at 12 V DC
Battery type	YUASA NP7-12FR (12 V 7 Ah), (batteries not supplied with product)
Tamper contact	Front tamper switch
Operating temperature	0 to +40 °C
Housing	Metal housing (1.2 mm mild steel)
Dimensions	264 x 357 x 81 mm
Weight (without batteries)	4.500 kg (housing incl. cover)
