

Remote control with 4 buttons

Overview:

The WRMT is a multi-functional remote control that allows a user to interact with their SPC system. The device supports common functions such as Set, Unset and Partset as well as a user programmable output function and a SOS panic feature. The WRMT battery is also replaceable for maximum life duration.

Features & Benefits:

- ✓ Easy to pair and easy to remove from SPC system
- ✓ Intuitive LED behavior provides system status feedback
- ✓ Configurable 'Function' button – can be assigned to activate an output (e.g. Garage Door), or to trigger an SPC setting procedure.
- ✓ SoS functionality (Dual button press)

Remote control with 4 buttons
