

## DS-PDSK-P

- Reliable perimeter protection offering early detection
- Adjustable sensitivity with gross attack override
- Advanced Digital Background-Noise Filter

## Specification

| opecineation.              |                                   |
|----------------------------|-----------------------------------|
| Detection Performance      |                                   |
| Detection Method           | Shock Sensor                      |
| Detection Range            | Up to 2.5m Radius                 |
| Sensitivity                | Potentiometer Adjustment          |
| Feature                    |                                   |
| Digital Processing         | Support                           |
| Tamper Protection          | Front                             |
| Interface                  |                                   |
| Alarm Output               | Normally Closed                   |
| LED Indicator              | Blue(Alarm)                       |
| Transmission               |                                   |
| Transmission Method        | Wired                             |
| Electrical Characteristics |                                   |
| Power Supply               | 9 - 16 VDC                        |
| Typical Voltage            | 12 V                              |
| Power Consumption          | 30mA                              |
| General                    |                                   |
| Operation Temperature      | -10 °C to 55 °C (14 °F to 131 °F) |
| Storage Temperature        | -20 °C to 60 °C (-4 °F to 140 °F) |
| Operation Humidity         | 10% to 90%                        |
| Dimension(WxHxD)           | 30 mm x 108 mm x 22 mm            |
| Weight                     | 37.5 g                            |
| Application Scenario       | Indoor                            |

## Available Model

DS-PDSK-P

Headquarters No.555 Qianmo Road, Binjiang District, Hangzhou 310051, China T +86-571-8807-5998 www.hikvision.com
